

# FOLLOW THE MONEY:

H.R. 3843 is another blank check for Lina Khan's FTC

In 2021, the FTC got a 10% bump from the COVID relief bill: \$30.4 million in new funding

Over 40 staffers left the FTC—**saving the agency another \$4 million a year** (est. \$100k average salary).

Either the savings from staffing changes can be meaningfully redirected—or **it's evidence that Khan doesn't have the managerial skills deserving of more money.**

Under Chair Khan, the FTC has conducted the fewest merger enforcement actions since 2015. **Tens of millions of extra funding, and less work done.**

## WHERE IS THE MONEY GOING?

Before giving Khan more money, **we must hold her accountable for the taxpayer dollars she's already taken.**

**VOTE NO ON H.R. 3843**
