

# Khan's FTC is all about "Fair" Competition NOT Protecting Consumers

**FEDERAL TRADE COMMISSION**

**OUR MISSION**

To prevent business practices that are anticompetitive or deceptive or unfair to consumers; to enhance informed consumer choice and public understanding of the competitive process; and to accomplish this without unduly burdening legitimate business activity.

**OUR VISION**

A U.S. economy characterized by vigorous competition among producers and consumer access to accurate information, yielding high-quality products at low prices and encouraging efficiency, innovation, and consumer choice.

**OUR STRATEGIC GOALS**

1. Protect Consumers: Prevent fraud, deception, and unfair business practices in the marketplace.
2. Maintain Competition: Prevent anticompetitive mergers and other anticompetitive business practices in the marketplace.
3. Advance Performance: Advance the FTC's performance through organizational, individual, and management excellence.

**2015**

In 2015, the FTC focused on:

- "vigorous competition,"
- "low prices,"
- "burdening legitimate business activity" and,
- "protect[ing] consumers"

...and in 2017, it reinforced this

...and in 2019, it reinforced this

...and in 2020, it reinforced this

**2023**

But then Khan came in and  
**discarded** the FTC of Bush, Obama, and Trump

Consumer protection is GONE  
Replaced with Khan's "fair competition."

**Our Mission**

Protecting the public from deceptive or unfair business practices and from unfair methods of competition through law enforcement, advocacy, research, and education.

**Our Vision**

A vibrant economy fueled by fair competition and an empowered, informed public.

**Our Strategic Goals**

1. Protect the public from unfair or deceptive acts or practices in the marketplace
2. Protect the public from unfair methods of competition in the marketplace and promote fair competition
3. Advance the FTC's effectiveness and performance

Under Chair Khan, the mission of the FTC is all about big government and social values like "fairness" rather than consumers.

Rather than advance true competition, Khan's FTC is seizing government power to choose what businesses win and lose.
