

# Policymakers & Industry Together Can Create a Digital SHIELD

There are constitutional solutions available to lawmakers to address digital concerns. SHIELD provides meaningful, workable policies to give ALL Americans and our children the tools we need to stay safe and secure online.

## — SECURE —

Secure data privacy protections for all Americans with federal legislation and public-private partnerships.

## — HOLD —

Child abusers accountable by prosecuting more of them. Tech is not and should not be the police.

## — INVEST —

Invest in child safety by giving law enforcement needed resources to investigate reports of abuse.

## — EMPOWER —

Empower parents with information about the safety tools available to them right now to keep their kids safe and determine their family's digital presence.

## — LAUNCH —

Launch easy-to-use educational resources available to all internet users about digital safety and security best practices.

## — DEVELOP —

Develop a digital literacy and safety curriculum for kids in the classroom to better prepare them for modern challenges.
